IPinSTEAM 3rd Newsletter

Partners have finalized the content and are now preparing to run a series of validation activities in their countries to test the materials among the project target group (STEAM teachers and students).

The real-life scenarios are already developed in English, while the IPinSTEAM Gamified Mediator is now live! You can find the link here: <https://ipinsteaam-demonstrator.eu> A series of STEAM-related concepts are promoted through the tool to support teachers conceptualize and embrace Intellectual Property principles in their teaching.

*The next transnational meeting will be held in **Portugal** in early July. All partners will have the opportunity to - finally - meet each other in person and discuss about the results from the validation exercises and the next steps towards the completion of the project.*

One-day multiplier events are yet to come within the last months of the project in all partner countries (UK, EL, CY, RO, PT, ES). All project results will be presented, while participants will be invited to join the **IPinSTEAM League**: a communication, training, and support bridge for all project practitioners!

Project Objectives

The aims of the IPinSTEAM project:

1. Developing a course to improve teaching of IP issues in STEAM subjects.
2. Creating a gamified moderator to deliver content in an accessible and engaging way.
3. Creating a virtual League where teachers and others can share knowledge and best practices.

Meet the Partners

CIVIC Computing (UK) – an
Edinburgh-based digital
agency and project coordinator
